

I would like to comment on the decision to allow media companies to further consolidate their control of the media by allowing the ownership of more television, newspaper and radio outlets by a single company.

There has already been too much consolidation of media outlets by large, corporate interests. Local news broadcasting and programming will not be enhanced by this decision. It is foolish to think that there will be a public benefit by allowing increased monopolization of television, newspaper and radio outlets.

Your position should be one of protecting the public interest, not giving it away to corporations that are not concerned about local programming.
